

PARAGLIDING BASIC

STARTING ₹26,999/- | 7N/8D

ABOUT THE PLACE

If you are an adventure enthusiast, then paragliding is something that will ring a bell to you. This course will make you comfortable being in the skies all alone as you learn active pilot skills, and develop some maneuvering tricks.

What are the various paragliding courses? There are three types of paragliding courses: P1 paragliding course - Basic ground handling P2 paragliding course - Building blocks of flying, small independent flights P3 paragliding course - Advanced course to become an independent pilot

First, as a beginner foundation course instruction are given which is very important and one cannot become a pilot without that. This is the most important step, and everyone should take care of this part.

Requirements for the safe training of pilots:

Physical Requirements

1. AGE: Minimum age required to train is 18. If you are 46 or older, we recommend that you consult with your health care provider whether it is safe for you to train. Under special circumstances i.e.

BRIEF ITINERARY

DAY 1

Basic Course: P1 + P2

DAY 2

Basic Course: P1 + P2

DAY 3

Basic Course: P1 + P2

DAY 4

Basic Course: P1 + P2

DAY 5

Basic Course: P1 + P2

DAY 6

Basic Course: P1 + P2

DAY 7

Basic Course: P1 + P2

DAY 8

Basic Course: P1 + P2

DAY 1

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 2

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 3

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 4

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 5

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 6

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 7

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

DAY 8

Basic Course: P1 + P2

- As in this course the most basic details are given which will be used again and again in all aspect of flying and in this part the most important things are discussed like.
- Ground Handling physical Skill to handle the ground, inflation, stabilization of wing and then same take off.
- How to fly wing with turns and without turns and how to land you wing these all point is discussed in basis Course and practiced.
- These courses are the building block of becoming a skilled pilot.
- You will learn the safety skills, ground handling (inflation, stabilization, kite, run, launch, fly and landing of the paraglider wing).
- You will also learn the techniques and theories to get you in the air as well as getting some airtime.

INCLUSIONS

- ✓ Instructor for entire training course
- ✓ Equipment required for Paragliding
- ✓ Transfer from Bir to Billing
- ✓ Flying lesson

EXCLUSIONS

- ✗ GST (5%) is applicable extra
- ✗ Anything not mentioned in the inclusions
- ✗ Any other costing involved due to any kind of natural calamity, forced circumstances which are out of our control

BOOKING PROCESS

Pay **₹10,000** per head to reserve your seat & you can pay the remaining amount 15 days before the trip.

BATCHES

PAYMENT PROCESS

Following mode of payments are available:

1) ACCOUNT TRANSFER

Name: WanderOn Experiences Private Limited

Account Number: 50200043969221

IFSC Code: HDFC0001409
